This fact shows that there is an equal amount of credit for each fee. As of December 31, 2013, taxpayers who have income equal to OR more than ITU 500 (1,850,000 New Suns) are required to present this information to PDT No. 684. The amount of income is determined by the sum of the amounts entered by 463 Net sales, 473 taxed financial incomes, 475 Other taxed incomes and the disposal of securities and assets of pdt no. 477 682. In box 477, only the amount of income charged to tax will be taken into account. Verification Balance: they will not be asked to submit a. Companies under the supervision of Banking and Insurance and the AFP: banking companies, financial companies, financial companies, fund transfer companies, shipping companies, guardianship and management of figures, foundation services company, general deposit stores, insurance companies, cash and spills, pension fund managers, rural savings and credit banks, municipal banks, small and micro-corporate development organizations (EDPYMES) and established and guarantee companies, and the MIVIVIENDA Fund. b. Cooperatives. c. Health care providers. d. Transport of hydrocarbons by pipeline and distribution of gas through the pipeline network. E. Persons exempted from income only during the taxable year of 2013. F. Bulk Fund Management Companies only for registered transactions taking into account the chart of accounts of the collective fund system. Procedure for entering information: PDT No. 684 has two options for entering information about Verification Balance:1. Manually.2. Import text files. 1. Manual:Consists of direct entry of information in each box. To do this, you must select the Detail option and enter Balance Data Logging. This wizard shows that you have enabled all the boxes for which you must enter information, depending on the type of account selected. It's necessary. get information in all active boxes. If you don't have information to report, you'll need to enter 0. 2. Importing a text file:Requires the pre-preparation of a text file and the execution of data import through the selection of the Import option. To prepare the file with the information to be imported, you must consider the format of the import file. For convenience, an Excel spreadsheet is added (to save the file to your computer, zip the file, and enable macros), it can be replaced with your information and then copied to a text file (notebook) with the name given in the instructions. Where you don't need to report zero (0). Do not enter numbers in thousands of formats. You must enter your amounts in the following boxes: • Initial balances• Transaction of the fiscal year and• Transfers and cancellations. • Large Sums, Balances, Balance Sheet Accounts, Results by Nature and Result of fiscal year boxes corresponding to account 891 are calculated automatically. You must read the instructions for creating the text file that will be used to transfer information to the PDT Control Balance. Download the file in Excel (to use recording on your computer, zip the file, and enable macros) The balance sheet is the financial statement that helps you know your company's finances from every angle that can be measured financially in a certain period, such as receivables, debts to suppliers, inventory value, etc. The difference between the assets owned by the company and the obligations it has to face is an equation created by the assets owned by the company. The financial statement is an indicator of whether the processes carried out in the company are efficient, whether resources are managed correctly, and whether the results are best or bad. In the previous article, you knew how to draw a balance sheet step by step and the main accounts that make it up, as well as the information that this financial statement gives you to know your company's financial health and make better business decisions. Once you know the balance sheet objectives and the information it gives you to learn more about your business and become more efficient at using your resources, it's time to implement this practice by taking the balance sheet into a spreadsheet and starting with financial analysis. Knowledge is power, so we share the format to create an overview on CorpoNet that will guide you in Excel, so strategic monitoring of your organization's financial information.
